# Sealing solutions from Rehfuß for our Stainless steel drives

What does IP69K stand for?

6 = Dustproof

9 = Protection during high-pressure cleaning at short distances/steam jet cleaning

K = high temperature of the water used

With our hygiene shaft seal you can clean the gearbox with a high-pressure cleaner and aggressive media (CIP = „Clean in place“).

The gearbox meets all requirements needed in the food, beverage and pharmaceutical industry.

HOUSING IN  
STAINLESS STEEL

LOW NOISE

EXCEPTIONALLY LONG  
SERVICE LIFE

EASY CLEANING THANKS TO  
SMOOTH SURFACES

PROTECTION CLASS IP69K  
WITH REHFUSS SHAFT SEAL

## REHFUSS IP69K SHAFT SEAL:

- Dead space-free shaft seal
- Optimally matched materials for the application
- Hygienic design based on the EHEDG guidelines
- FDA compliant
- Meets all requirements for cleaning with aggressive media

## CHARACTERISTICS:

- Lubricant suitable for the food industry (NFS H1 authorized)
- Housing made of stainless steel
- Stainless steel shaft
- Independent of installation position

## EXECUTION:

- Compatible with our stainless steel motors SBE, SBH or N for direct mounting or motor coupling variant.

Stainless steel  
motor SBH

Stainless steel  
motor SBE

Stainless steel  
motor N

## AREAS OF APPLICATION:

- Food industry
- Beverage industry
- Pharmaceutical technology
- Chemical industry
- Environmental engineering
- Packaging machines
- Cosmetics industry
